PROFILE

A committed undergraduate at CMREC, an independent JNTU-linked institute, holding a 7.5 CGPA and a distinguished history in hackathons. Skilled in Python and C, I excel in problem resolution and showcase robust interpersonal abilities, making me well-suited for future endeavors in software development and data analysis positions.

EDUCATION

- Bachelor of Technology in Electronics and communication Engineering, CMR Engineering College, Affiliated with Jawaharlal Nehru Technology University Hyderabad 2022-present
- Diploma in Instrumentation Engineering from the Government Institute of Electronics, East Maredpally, 500026, with a CGPA of 7.67. 2019-2022
- 10th Grade, Vivekavardhini English medium high school , jagityal .Telangana

SKILLS

- **Programming Languages :** C, Java, Python, , JavaScript,
- **Web-development:** HTML,CSS,java script.

PERSONAL PROJECTS

- Gait Recognition Algorithm using spatial-temporal silhouette analysis.
- LI-FI Based data transmission system.
- Real time face attendance system using python.
- Library management system using python & java script.
- Image processing techniques using python.

PUBLICATIONS

Published as Chapter ID IIPV3EBS09_G5 in the IIP Series, the research explores "Futuristic Trends in Artificial Intelligence," focusing on lifi-based communication systems and underwater communication systems. The work delves into innovative technologies.

CERTIFICATES

- Python , Java , C ,certifications from IIT BOMBAY
- Certificate of chapter publication by IIP SERIES
- Merit certificate techsphere 2k23 project expo at MREC
- Azura 2k23 merit certificate in CMRK
- Idea expo 2k23 & hobby project expo at CMREC
